## Machine Quilting

I specialize in custom, hand-guided machine quilting.

Prices will vary depending on the style and intricacy of the quilting.

Quilting prices are calculated by the area of the quilt (length multiplied by height).

- All-over quilting ranges from \$.015 per square inch to \$.03 per square inch, depending on the complexity of the pattern. This quilting style is independent of the pieced design of the quilt top.
- Custom quilting begins at \$.025 per square inch and goes to \$.045 for more intricate designs. Stitching in the ditch is \$.035 per square inch, depending on the amount of stitching-in-the-ditch on the quilt.
- Specialty threads (variegated, metallic) are \$5 per quilt, and standard threads are \$3 per quilt.

## Other Services

- I can sew seams for you at \$5 per seam for up to 72", \$10 per seam longer than 73".
- Binding can be applied to the quilt top while it is on the machine for \$0.10 per running inch. You supply the binding, ready to be applied, with your quilt top. Please ask if you'd like more information.
- Binding can be applied and hand-finished for \$0.30 per running inch. You supply the binding, ready to be applied, with your quilt top. Please ask if you'd like more information.
- Hobbs Heirloom batting is available at \$6.50 per yard.
- Airlite polyester low/medium-loft batting is available at \$8.00 per yard.

## Preparing Your Quilt for Quilting

- Your quilt backing fabric needs to be at least 6" larger (in both height and width) than your quilt top.
- Please press your quilt top so that the seams are flat. Bunched seams can make unattractive spots in your finished quilt.
- Please measure through the middle and sides before cutting the borders to length. If you need assistance with this, please let me know! If your quilt top does not lay flat before quilting, I cannot guarantee that there will not be puckers and tucks in the finished quilt.
- Selvages should be removed on all fabrics.
- While I will attempt to center backings, I cannot guarantee that any pieced backings will be perfectly centered to the top.
